**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the invention has been changed to:

--A method of making a joint between two components.—

In the Specification, the paragraph beginning of page 1, line 5, has been amended as follows:

--This application claims priority to U.S. Patent Application No. 09/647,607 filed January 4, 2001, now abandoned, and to German Patent Application No. 198 15 407.0 filed April 6, 1998.--

***Remarks***

2. The After-final amendment dated April 7, 2005, has been entered.
3. Claims 43, 47-48, and 52-54 are allowed. The Examiner previously indicated the allowable subject matter in the Final Office Action dated December 23, 2004 and Office Action dated June 3, 2004.

5. The statement of priority was amended to reflect the status of the parent application. It was also noted that Applicant's preliminary amendment of the priority statement dated July 23, 2003, incorrectly referenced the parent application as 09/647,603, rather than 09/647,607.
